Unofficial Typst Template for Presentations

This template is based on the official `polylux` template for `typst` presentations, but has been modified to fit the corporate design of the TU Bergakademie Freiberg.

Why?

- To create professional-looking slides quickly and easily
- To maintain consistency in formatting and design
- To leverage the power of Typst for document generation

How?

- Use the provided template as a starting point
- Add your content using Typst's syntax and features
